## About Me

Md. Zonayed Ahmed, a CSE student at Daffodil International University. I'm passionate about video editing, content writing, and cyber security. I enjoy exploring the intersection of technology and human behavior, solving problems, and building purposeful solutions that benefit others.

## Skills

- Management Skills
- Creativity
- Content Writing
- Video Editing
- Cyber Security
- Emotional Intelligent
- Communication
- Leadership

## Education

### Bachelor of Science in Computer Science and Engineering

Daffodil International University

2022 – Present

Studying core subjects like programming, algorithms, databases, and cyber security. Passionate about software development and exploring research at the intersection of technology and human behavior. Eager to apply classroom knowledge to real-world challenges. Continuously learning to stay updated with modern technologies and create solutions with purpose and impact.

### Higher Secondary Certificate (HSC)

Nawab Habibullah Model School & College

Passed in 2021

Focused on science subjects with a strong academic foundation in Information and Communication Technology (ICT), Physics, and Mathematics. Developed analytical and logical reasoning skills, participated in group studies, and maintained consistent academic excellence throughout the program. This phase helped build the groundwork for my passion in technology and problem-solving.

## Experience

### Research Presenter & Human-Centered Design Explorer

Daffodil International University

2025 – Present

Led an independent research project titled "Reawakening Humanity: Creating Visionary Thinkers in Gen Z", focused on reclaiming emotion, purpose, and moral values in a screen-dominated world. Explored the psychological and social impact of digital addiction and self-centered tech culture. Designed a human-centered framework addressing issues like loss of purpose and moral erosion. Presented findings through visual storytelling, academic inquiry, and solution-oriented insights.

### Front-End Developer – Elite Learning App (Academic Project)

Daffodil International University July 2024 – December 2024  
Contributed to the front-end development of Elite, a skill-based learning platform designed for curated course delivery, live sessions, and real-time communication. Worked with HTML, CSS, and Flask to design responsive user interfaces. Collaborated with team members to debug, enhance usability, and align UI/UX with educational goals. Gained hands-on experience in building purposeful tech solutions for impactful digital learning.

### Video Editor – YouTube Content Creation

Freelance | Ongoing

Create engaging and high-quality video content for YouTube channels, focusing on storytelling, pacing, and visual aesthetics. Skilled in using editing tools to craft compelling narratives that captivate audiences. Known for attention to detail, creative transitions, and delivering polished content that boosts viewer engagement.

### Cybersecurity & Python Programming

Coursera (Google & University of Michigan) | Ongoing

Currently pursuing the Google Cybersecurity Professional Certificate and the Python 3 Programming Specialization. Gaining practical skills in system security, threat detection, and secure networking, alongside in-depth training in Python, including data structures, web access, and databases. Focused on building a strong foundation in both cybersecurity and software development.
